

# CALL FOR PRESENTATIONS

## Teaching and Learning Technology Conference March 15, 2018

---

Educational Technology at Missouri University of Science and Technology (Missouri S&T) would like to invite you to submit a presentation proposal for the **Teaching and Learning Technology Conference**, scheduled for **March 15, 2018**.

### THEME: Literacy in S.T.E.M. Education

---

Society's future needs require more scientists, technicians, engineers, and mathematicians than ever. This will require a population highly educated in STEM fields in order to resolve societal changes brought about by advances in science and technology, to achieve greater economic progress for both developed and developing nations, and to satisfy each individual's personal needs to become a fulfilled, productive citizen. How can we best ensure that today's students have met both basic and expert literacy in STEM fields in order to address these needs?

Missouri S&T's Teaching and Learning Technology conference is an excellent forum in which to share your ideas on this broad and complex topic!

Please submit all proposals by **Friday, December 1, 2017** to [edtech@mst.edu](mailto:edtech@mst.edu). Decisions regarding acceptance will be made by **Friday, December 15, 2017**, with notification following soon after. If you do not receive a notification by **Christmas, 2017**, then please feel free to contact us to see if you have been accepted or not.

### GENERAL INFORMATION

The conference will take place in Butler-Carlton Hall on the Missouri S&T campus, consisting of concurrent sessions. Pick the session that best fits your topic of presentation. We are seeking proposals from faculty and teaching professionals who have utilized educational technology and would like to share those experiences with colleagues.

### SESSION TYPES:

- **STANDARD SESSION** – A “standard session” is a 45-minute breakout session presentation. Please share your own studies, techniques, experiences, education, and practices on how you celebrate excellence in teaching.

- **“LEARNING STACK” SESSION** – A “Learning Stack” session is a shorter presentation (15-20 minutes) where you will present a brief overview of strategies, techniques, methods, innovations, or tools that have helped you encourage and motivate learning in your teaching environment (K – 12, community college, higher education, etc.). Audience Q & A will be encouraged, so please keep your presentations concise and to the point!

Multiple “Learning Stack” sessions will take place during the same time slot as a standard session.

- **POSTER SESSION** – As an alternative to submitting a proposal for a full presentation, you are welcome to submit an idea for a poster session. Poster sessions will be set up in the Atrium of Butler-Carlton Hall, around 4:30 p.m., and will be on display during our Vendor Reception at the end of the day on Thursday, March 15, 2018.

**PRINT:** We can accommodate several different sized posters, but you’ll most likely want to stick with a standard size. These sizes are available at most print shops and places that accept large print jobs, such as Staples® or Office Depot®. An excellent size for posters is 36” wide by 24” tall. EdTech will provide easels. Poster presenters are responsible for all printing, laminating, and foam board mounting costs.

- **HANDS-ON WORKSHOP** – If you have a demonstration that would not fit within our standard session, this is for you. These 1 hour 45-minute sessions are a great way to give a hands-on demonstration about your topic.

### **THEME: Literacy in S.T.E.M. Education**

#### **Presentation Summary:**

Write 2-3 sentences that clearly describe your session. The description will be included in the conference information.

#### **Audio-Visual Needs**

(All rooms in Butler-Carlton Hall are equipped with a computer, laptop connector, a projector, and internet access.)

#### **Presenter Profile:**

Please give us a brief description of your academic/research interests, along with any other personal/professional information you would like to share about yourself. This information will be posted on the TLT conference web site to give attendees some idea of who you are and what interests you about teaching and learning technologies.

***Proposals are due by Friday, December 1, 2017.***

**Return Proposals to:** Nick Oswald  
G8 Curtis Laws Wilson Library  
Rolla, MO 65409
